House of Colour - Gill Bushnell  
Starting at  7:00 pm

Some people think Image Consultants are for the rich and famous and that they are expensive. House of Colour Consultant, Gill Bushnell, will help you:

- Discover the colours that work for you (look healthier, younger, more dynamic)
- Discover clothing shapes to best suit your body's natural lines
- Learn the language of clothes and the rules of dress
- Create your capsule wardrobe (planning, budget/lifestyle management)
- Make great decisions when buying clothes (spend wisely, avoid costly mistakes)

And if you have made mistakes...

we will see from Gill that one person's mistake is another person's joy

This evening see your donated mistake(s) look great on someone else
   (Items on hangers please)
